

Student Council News

Student council's contribution

Last year the Student Council raised money to buy things within the school, that students asked for. They added some more play equipment in the playground and some water fountains around the school.

This year, the student council raised money to help with the development of our forest school.

Recycle batteries

It is well known how harmful and toxic batteries can be for the environment. We would like to remind you all that there is a recycling bin for batteries at the Reception, so, if you happen to have any worn out batteries, please bring them in.

Collect bottle caps

Our school would like to start collecting bottle tops and use them to create beautiful art for our playground

Litter picking rotas

Different classes are responsible for picking up litter such as plastic bags, tin foil and any other litter thrown on the ground. We want to apply this practice so that we keep our school clean and safe, whilst setting an example to all the schools in Cyprus.

Make a heartALMA

The student council have supported the ALMA program of the "Theotokos" Foundation, by selling ceramic hearts and donating the money to the foundation.

Future Events

Red Cross: The Junior School have been collecting dry food and daily essentials, to help families and children in need. You can find the boxes at the Reception **till Friday 16th** December.

The student council will visit Red Cross and help with the packaging of boxes, so they are ready to be delivered before Christmas.

Last day of school before Christmas: On the last day of school, we will be having a **Pyjama day**. Students will be able to come to school with their long trousers, long sleeve pyjamas and trainers! More information will be provided closer to the day!

Christmas bazaar
THANK YOU for supporting us at the bazaar with our craft and squishies!
