"During student council I liked when we went to red cross and helped lots of families. I also enjoyed squeezing lemons and voting for donkeys."

Katerina

"Things I love about student council ⇨ I loved the forest school because it was a peaceful place to read and explore. I also loved our lemonade stand because it helped raise money for the dog shelter! I obviously loved the trips to the red cross because we helped children and adults that are in other countries. With the help of our amazing teachers, we could accomplish all of these."

Phoebe

"I have enjoyed during my time as school council squeezing lemons so we can sell lemonade. My favourite of all was making posters and selling heart almas. Another thing is presenting in assemblies, collecting litter, bottle cap competition and coming to the meetings. Happy to be a part of school council but sad that its coming to an end."

Christina

"Student Council is the best! Every Wednesday we meet at the Reception classroom and start talking about our school. I really like Student Council because we all meet new friends and new teachers. During the Student Council year I really loved the trips and Assemblies that we did together. Now all the School knows us. And that's not all! Student Council makes us better people. I still remember the time we went to a trip at the Red Cross. There, we helped with the packing of food to the people who are suffering in Cyprus. That is why I love Student Council!"
