

LIFE AT THE JUNIOR & SENIOR SCHOOL

SPRING EDITION

As we reflect on the bustling activities of this past half-term in the Early Years department, we are filled with excitement to share some of the wonderful experiences our youngest learners have been engaged in.

EY1 has been joyfully exploring the world of nursery rhymes, having fun with the catchy rhythms, and developing a love for language and sound. EY2 had a hands-on experience with nature as they planted, harvested, cooked, and ate potatoes from their garden—a delightful journey from soil to plate! Meanwhile, EY3 celebrated a significant milestone, marking 100 days in school! Our Reception classes embarked on an interstellar adventure, visiting the planetarium.

We are also delighted to announce that, following the success of our first 'Stay and Play', we will be hosting our next 'Stay and Play' session on 17th April from 12:00 PM to 1:10 PM. This is a wonderful opportunity for parents to join us and experience the vibrancy of our end-of-day activities. Your participation is greatly valued, and we look forward to welcoming you. Details to follow on Class Dojo.

A vibrant celebration of the Chinese New Year and the Lantern Festival. See picture below!

EY1

EY1 love experimenting with different materials and textures, to create different effects, make music and explore movement and sound.

EY2

Learning our letters and sounds through play and exploration: EY2 have embarked on an exciting journey of learning letters and sounds through various sensory experiences, particularly kinesthetic ones. Here are a few examples of these engaging activities. Can you guess which letter sound we are learning in each photo?

EY3

In Early Years 3, our little stars recently celebrated the Chinese New Year, Valentine's Day, and the 100th Day of School! From crafting Valentine's cards to donning dragon masks for a lively parade and enjoying festive noodles, they embraced the festivities. To mark the 100th day, they engaged in creative activities involving the number 100, including crafting their own necklaces with cereal hoops and they dressed up as 100 year olds. A fitness event marked the 100th day milestone, where parents and children laughed and exercised together. These moments filled our days with joy, and we look forward to more celebrations in our EY3 journey!

Greek Department: EY3 children during the unit "Here Planet Earth" learn about the geography of the earth, explore the geographical and political map, discover the 5 continents, model the structure of the earth and built their own volcano in the classroom!

Reception

Exploring the cosmos at the Cyprus Planetarium, Reception students have embarked on an unforgettable journey into space this term. Transitioning from stargazing to hands-on forest ranger activities at forest school, they've embraced outdoor learning with boundless enthusiasm, creativity, and a deep connection to nature. It's been a remarkable term of discovery, where every moment has been filled with wonder, exploration, and learning.

Greek Department: Reception children attended the theatrical performance of "The Harlequin" by the theatrical production of Yiannis Spanos, in which they had the opportunity to interact and participate as well as enjoy carnival rhythms and visuals that complemented the lively atmosphere.

THANK YOU

We love our school! We extend our heartfelt gratitude to our incredible Early Years team, our supportive families, thank you to the PTA and our creative PA, Pascale, for designing this newsletter. Together, your efforts not only enrich our school experiences but also strengthen the bonds within our warm and inclusive community.

- Cally Xenophontos
Head of EYs
